

Day 1 (14-12-2017)		Day 2 (15-12-2017)		Day 3 (16-12-2017)	
Dr. Naveen Jaffery: Hospital Pharmacy		Dr. Syed Iqbal Ahmed: Hospital Pharmacy (Dr. Syed Iqbal Ahmed) Allergies and Infections		Dr. Naveen Jaffery: Hospital Pharmacy (Dr. Naveen Jaffery) Pathology at the cutting edge of technology	
Dr. Javed I Khan: Keynote address, Prof. Adilulhasan Rizvi: A model for free health care delivery in emerging economies		Dr. Silke Schelenz: Antifungal stewardship and up date on BMM Best practice for the laboratory diagnosis of serious fungal diseases		Dr. Rowan Naveen: Role of Pathologist in Integrating Molecular Pathology laboratory Data into Clinical Practice	
Topic Lecture: General (invited) Mananwar Ahmed: 70 years of Pathology in Pakistan		Dr. Osman Yousof: Respiratory allergies - from immunodiagnosis to immunotherapy		Dr. Mirza Naeel Zafar: Bone analysis: The key to understanding chronic disease	
Registration of Exhibitors		Dr. Amir Naeem: National Perspectives for Infectious Diseases		Dr. Subina Aidi Jafri: Investigations to diagnose neuro-immunological disorders	
		Dr. Afza Zafar: Infection Control and Challenges in the Laboratory in resource limited settings		Dr. Shahid Perwez: Predictive Histopathology: Important additions	

Symposia

Symposium 1 Translational Cancer Cells	Symposium 2 Immunology	Symposium 3 Metabolic Diseases	Symposium 4 Challenges in Infections	Symposium 5 Oncogenomics	Symposium 6 Immunopathology	Symposium 7 Educational Translational	Symposium 8 Biomarkers	Symposium 9 Epidemiology of Infections	Symposium 10 Sider Similar	Symposium 11 Immunopathology	Symposium 12 Molecular Basis of Diagnosis	Symposium 13 New Laboratory Practices	Symposium 14 Anatomic Pathology Updates
Marwan Hamid: Stem cell therapy for organ failure	M Khurshid: Hemovigilance	Big, Asrar Jig: (RDS) Venous Blood Gase Analysis: Consequences in Critical Care	Silla Schelen: Challenges in the management of the E. coli Exporcan C. coli hospital outbreak	Naila Kayani: Recently described enteritis in female genital tract	Big Tahir Aziz Ahmed: When and how to investigate autoimmune encephalitis		Wafa Manir: Cerebral Artery Disease Risk SNPs and cytokine imbalance in premature coronary artery disease in Pakistan. Is Genome Outlets the way forward?	Shiba Bage: My Experience in Infectious Diseases at a University Hospital in Saudi Arabia.		Ghazala Jaffery: Immunological aspects of Zika virus infection and disease	Natasha Anwar: It is the Best of Times, It is the Worst of Times: Challenges in HCV Testing in Pakistan	Big Riwaz Hashim: Safe Laboratory practices, time to revisit	Arslan Ahmed: Tracking in histopathology. Why do I?
Fatmeh Hashmi: Transcription profiling of colorectal cancer cells, cancer stem cells and exoplanet resistant mouse AK5C.	Nuheri Samir: Dimensions of quality in transfusion medicine	Alysha Habib: Seven decades of Vitamin D research in Pakistan: Too little, too much or just right?	Elan Mirza: Microbiology and clinical reasons, key in control of antimicrobial resistance	Big, Riffat-ul-Us: Tumor budding in colorectal cancer	Zahra Hashmi: Impact of diabetes on liver immunity in hepatocellular carcinoma	Shahid Zafar Hashmi: Advances in the treatment of haemophilia	Howard Ali: AT pin brain Neurotrophic Peptides: A known marker of cardiac failure and its evolving role in non-cardiac peptides	Evan from: Changing epidemiology of arbovirus in Sindh province of Pakistan	Nadeem Ali: Papilloma virus infection and cancer, immunological aspects	Shaghatta Khalid: Renal Cell Carcinoma: update on predictive molecular biomarkers	Imran Siddiqi: Chemical Pathology: Now a challenge	Auf Layz Salafary Gland Tumors, Latest updates	
Azwar Abbas: Renal transplant in highly serotyped patients	Sahana Alami: Stem cell transplant in thalassemia	Faiza Imtiaz: Association of Biochemical markers and polycystic Ovarian Syndrome in Population of Karachi	Kanwar Jabbar: Increasing drug resistance in invasive yeasts, Is it only due to Candida albicans?	Noreen Faridi: Advances in Lung Cancer	Talal Ramez: Immune Responses up regulate in renalatoma tumors and down regulate in Neuroblastoma in Transplants		Naila from: Serum Metabolomic Profiles for Breast Cancer Diagnosis, Grading and Staging by Gas Chromatography-Mass Spectrometry	Bashir Jafar: 70 years of infectious diseases in Pakistan	Nuheri Ali: Relationship between microbes and human health: "An insight into the gut microbiome"	Saima Sabhat: Clinical significance of polymyositis in transplantation	Zahra Hashim: Microarray and their utility in clinical genetics and gene expression studies	M. A. Bukhari: The future of cancer: how future: activating nature's cancer killer cell	
Azma Nazeem: Infections in Solid Organ Transplant Recipients	Hwar Ahmed: Childhood Auto Immune Hematologic Disorders (AIDS)	Bushra Afroz: Inherited Metabolic Disorders - diagnostic challenges	Ali Nadeem: MOR TB – Bridging the growing gap	Rameza Idrees: Mucinous neoplasm of ovary: diverse pattern of invasion	Sahiba Aziz: Hyperactive Immune System: Good or Bad	M. Nadeem: Cytochrome in haematology	Sahiba Aziz: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	M. Aam Bage: Severe virus malaria in Southern Pakistan	Salafat Sarfraz: "An insight into the gut microbiome"	Alysha Abid: Prospects of NGS-based genetic testing of inherited disease: targeted gene-panel screening for the diagnosis of hyperoxemia at SUT	Umer Anwar: Laboratory IT solutions and laboratory informatics		Shahana Shadi: Morphological classification of FGOS, is it
Azma Munir: The Brexit 2017 renal transplant update	Bushra Moin: Bone health in Thalassemia, a neglected area in Pakistan	Leena Jafar: Inherited Metabolic Diseases (IMDs): On experience, current status and perspectives	Sana Jamil: The Ecological and Environmental Perspective	Naseem Begum: Denovomutated giant cell tumor of bone: histological changes that may lead to misdiagnosis	Epithelial Cells from Mucosa Associated Lymphoid Tissue (MALT)		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Faisal Hanif: Risk Assessment	Dr. Gurmehar Begum: All Regs.				
Wajha Moucharrif: Significance of pre- to EIA and RFLP in renal transplant	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Wajha Moucharrif: Cancer screening in extended family members of patients with chronic cholangiocarcinoma.	Sadia Ali: Detection of placental derived growth factor receptor alpha (PDGFR) gene polymorphism in Pakistani population using a single detection assay	Chiragh Ali: Evaluation of a Novel Clinical Biochemical Score for Screening of Inherited Metabolic Diseases in Pediatric Population	Ivan Mirza: Emerging Cholangiocarcinoma in Pakistan: A Review of the Literature	Sahiba Anjum: Immunohistochemical Expression of CD 135 and Hsp 40 in Cervical Cancer: A Prognostic Marker	Abdul Qadir: Analysis of JAK2 T309 mutation in patients with renal disease in tertiary care center of Karachi.	Furhan Faraz: Renal	Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with				
Rehaman Hashmi: Frequency among HIV positive patients (Pneumonia) against HIV negative patients (bacterial disease) related to HIV in general transfusion recipients and its correlation with HIV co-infection	Naila Rehman: Patient blood management a practical approach to minimize blood transfusions among hospitalized patients	Saima Ayub: Long term Glomerular Renal Function Rate of Kidney donors	Sana Jamil: Human Papilloma (HPV) and Cervical Cancer: National and International Perspectives	Saira Fatima: An approach to cutaneous lymphoproliferative	Basal Ahsan: Profiling of epithelial cells with an emerging histopathologic characteristics in autoimmune in breast with		Samir Jafar: Gamine melanoma characterization and correlation with molecular subtypes of melanoma	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with	Saima Jafar: Outbreaks and possible outbreaks due to contaminated histopathologic characteristics in autoimmune in breast with

Closing Ceremony

Evening Plenary Sessions

Dr Qasim Mehdi Pteryary (2-3:30 pm)	Dr Shah Jehan Pteryary (2-3:30 pm)
Malignancies	New horizons in Pathology
Tariq Shafi: Myeloma case management discussion and approach	Majid Gen. M. Tahir Khatri: Current problems and possible approach in teaching of pathology: looking for blended learning
George Kariakopoulos: Considerations on the New WHO Classification of Pituitary Adenomas	Mawana Maari: Biomarkers in transplantation
Nadir Hasan: Cancer and Chao's "Reductionism vs Complexity	Irfan H. Khan: Integrative Approach in Tuberculosis Biomarker Research: Nonhuman Primates to TB Patients
Nadira Mansoor: Proliferative indices and the histopathologist	Gen. Perwaiz Ahmad: Update on bone marrow transplantation in Pakistan

Free Papers

Free Papers 1	Free Papers 2	Free Papers 3	Free Papers 4	Free Papers 5	Free Papers 6	Free Papers 7	Free Papers 8	Free Papers 9	Free Papers 10
Adnan Al-Mat, Serum level of IL-6 in patients of type-2 diabetes mellitus with and without infection: A comparative study	Syed Fatima: Frequency of JAK2V617F Mutation in Patients with Philadelphia Negative Myelodysplastic Neoplasms	Aysha Nabilah Khan: Identification of Parvovirus PPNV Infection in Patients with Transfusion Dependent Thalassemia: Major Using PCR Nonamplification	Najia Farooq: Prevalence of Dengue Virus Serotype 1 in Pakistan	M. Farhan Bari: Identification of molecular basis for disturbed platelet function in genetically disabled platelets	Blisith Afi: Antibodies to Jaqinquin-4 (labeled NADH) of A2M3A contribute to sensitivity and highly specific for neuroendocrine tumors	Bachma Madi: High prevalence of self-reported iron-deficient patients and fractures in young women in the breast cancer screening in Southern Pakistan	Fahimuddin Nadeem: Chromosomal alterations associated to PMN-35 expression in the peripheral blood smear of conventional multiple myeloma using gel electrophoresis	Serika Cawston: Comparison between total colony count of urine culture samples collected by automated screening system and conventional manual method using gel electrophoresis	Syed Ahmed Zaman: PAMPA Expression in Primary Renal Cell Carcinoma: A Cross sectional Study
Reza Haghighi: Evaluation of Quercetin and Gallic acid for degradation of Mycobacterium tuberculosis in an in vitro setting	Najia Nisar: Histological spectrum of Parvovirus based on mouse marrow biopsy in Pediatric and Adult patients	Muhammad Latif: Frequency of predilection in a cohort of children reporting to Combined Military Hospital, Quetta for evaluation of placenta glucose levels	All-Raza: Prevalence of Chikungunya virus in Pakistan	Rahma Rahazi: Frequency of proteinase inhibitor angiotensinogen in transgenic rat serum: guided proteinase inhibitor in mice with suspected proteinase carrier	Saba Shabbir: Association of opsinin with normal peripheral of inherited subjects	Nasirullah Ali: Prevalence of the Golden Urn - Audit of A10 Assays Treatment	Nasirullah Ali: High incidence area of Spinal Arthritis	Fatima Saad: Pattern of Dengue Virus Blood Stream Infections and their Antibody Susceptibility, Following a Neonatal Intensive Care Unit	Shahbaz Saad: Immunohistochemical expression of ERB in Colorectal Cancer - Target of Emerging Anti EGFR Therapy
M. Ali: Molecular Association of genetic polymorphism of the Interleukin-18 (C95A) and IL-18 (E87) and salivary cytokine (IL-18) in HIV-1 infected patients in Pakistan	M. Ali: Molecular Association of genetic polymorphism of the Interleukin-18 (C95A) and IL-18 (E87) and salivary cytokine (IL-18) in HIV-1 infected patients in Pakistan	Najia Nisar: Brain bleeding disorders: Drug audit of a tertiary care Hospital Karachi	Najia Nisar: Frequency Of Chikungunya Infection In Cases Of Primary and Secondary chikungunya	Marzi Zahedi: Identification of Specific Autoantibodies in the Absence of a Rheumatic Disease: A Case Series	Ernan Aranz: Frequency of Multiple Myeloma in Brain Cancer Cells with Immunoprecipitating With Anti-CD34 Antibody	Ernan Aranz: Frequency of Multiple Myeloma in Brain Cancer Cells with Immunoprecipitating With Anti-CD34 Antibody	Ernan Aranz: Frequency of Multiple Myeloma in Brain Cancer Cells with Immunoprecipitating With Anti-CD34 Antibody	Serika Cawston: Antimicrobial Activity of Commercially available Lactobacillus strains against Gram Negative Clinical Isolates	Muhammad Bilal: Frequency of IL-18 immunohistochemical differential expression on myeloid sarcoma cases of various subtypes
Siddiq Farooq: The Effect Of Dengue Virus Infection On The Expression Of Interleukin-6 (IL-6) And Interleukin-8 (IL-8) In Salivary Tissue (Tg-8) On The Role Of Dengue Virus Infection	Serika Cawston: Comparative study of A10 between ticks vegetation and non-tick vegetation population of Tharparkar region	Atiya Bibi: To determine the cut off level for detection of dengue fever secondary hyperthermic hyperthermia for our population	Najia Nisar: Enzyme Of Multiple Myeloma In Cases Of Primary and Secondary chikungunya	Zohra Ali: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Ghousia Ahmed: The Prevalence Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Ghousia Ahmed: The Prevalence Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Ghousia Ahmed: The Prevalence Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Shahbaz Saad: Accuracy Of Touch Preparation And Frozen Section In The Intraoperative Diagnosis Of Sentinel Lymph Node Metastases In Breast Cancer	Sarwan Nisar: Accuracy Of Touch Preparation And Frozen Section In The Intraoperative Diagnosis Of Sentinel Lymph Node Metastases In Breast Cancer
Rishina Bhat: Salivary levels of IL-6 and IL-17 can be an indicator of disease severity in children with leukemic associated thymic lymphoma	Umar Javed: Diagnostic Accuracy Of Based Immunoassay For Detection Of Dengue Virus Infection In Patients With Dengue Fever	Najia Nisar: Utility Of Urine Organic And Inorganic Acids In Detecting Acute Kidney Injury	Najia Nisar: Early detection of multiple myeloma by using MCT 7000 system	Arum Sani: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Arum Sani: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Arum Sani: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Arum Sani: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Arum Sani: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Arum Sani: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya
Sabahat Asim: Platelet aggregation in atherosclerosis and its involvement by internal products	Fizza Nazim: Comparative Analysis of Results of Blood and Bone marrow Samples for Flow Cytometric Technique for Leukemia in Pediatric	Husna Mehmood: Diagnostic accuracy of IL-6 stimulation test for a lupus erythematosus and its role in the diagnosis of systemic lupus erythematosus	Sobia Rafiq: Spectrum of HIV/HSV Infection: Study From a Tertiary Care Hospital in Karachi, Pakistan	Nooshwan Niaz: Correlation of IL-6 and TNF-α in the diagnosis of Systemic Lupus Erythematosus	Hafsa Tawar: Oxidative Burst As A Marker Of Granulocyte Dysfunction In Transplant Recipients With Infection	Najia Nisar: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Najia Nisar: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Najia Nisar: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya	Najia Nisar: Frequency Of Dengue Virus Infection In Cases Of Primary and Secondary chikungunya
